### SUMMONS.

IN THE DISTRICT COURT OF THE STATE of Nevada, in and for the county of Washoe. The State of Nevada sends to Archibald Gibson GARDNER. You are hereby required to appear in an action commenced against you as defendant by A. E. Gibson, as plaintiff, in the District Court of the State of Nevada, in and for the county of Washoe, and answer the complaint therein within ten days after the service on you of this summons (exclusive of the day of service), if served in said county, or twenty days, if served out of said county, but within said district, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover the judgment and decree of the Court dissolving the bonds of matrimony heretofore and now existing between you and this plaintiff upon the grounds of desertion and failure to provide plaintiff the common necessities of life, though abundantly able to do so, all of which will more fully appear from the complaint which is on file in the office of the Clerk of said Court at Reno, in said county, and to which you are especially referred. And you are further notified, that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof, I have hereunto set my hand and entered the seal of said Court this 24th day of March A. D. 1890  
**T. V. JULIEN,**  
Clerk of the District Court of the State of Nevada, in and for the county of Washoe.  
m24-6w.

### SUMMONS.

IN THE DISTRICT COURT OF THE STATE of Nevada, in and for the County of Washoe. The State of Nevada sends to Vincenzo Alberti, defendant, greeting.  
You are required to appear in an action commenced against you as defendant by Maria Alberti, as plaintiff, in the District Court of the State of Nevada, in and for the County of Washoe, and answer the complaint therein within ten days after the service on you of this summons—exclusive of the day of service—if served in said county, but within said district, and in all other cases forty days, or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover the judgment and decree of the said Court dissolving the bonds of matrimony now existing between you and said plaintiff, on the grounds of extreme cruelty on your part toward her, practiced by you since the marriage between you and said Maria Alberti, all of which will more fully appear from the complaint which is on file in the office of the clerk of said Court at Reno, in said county. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.  
In testimony whereof, I have hereunto set my hand this 19th day of February A. D. 1890  
**R. H. LINDSAY,**  
Attorney for Plaintiff.

## BREVITIES.

Arlie Farrington is in town.  
J. P. Foulks has returned to Verdi from the Bay.

Nasby will be Reno's P. M. on and after next Tuesday.

The wind and dust continues to circulate through the streets.

Well, General, when do we get some more Spring weather?

D. A. Bender came up from below yesterday, and continued on to Carson.

Read what Young has to say about his portable fence in the 50 cent column.

M. E. Ward departed for the Bay yesterday morning, and will be absent a week.

Assessor Stoddard will soon start on his annual round assessing Washoe's property.

A large crowd attended the inspection of Company C. last night by Adjutant General Ball.

A. Dennery, now a traveler for the Sacramento Glass and Crockery Co., was in town yesterday.

The Westinghouse Instruction Car went to Carson yesterday morning to post the V. & T. boys on the use of the air brakes.

A great many trout are being caught in the river east of town, these days, and the market is well stocked with the speckled beauties.

The pastor of the M. E. Church will preach on Nebuchadnezzar's dream at 10 A. M. Revival sermon at 7:30, followed by an altar service.

One of the Cleveland-Haverly Japs is the father of the original "Little Allright," who created such a sensation in America about fifteen years ago.

Sagamato, who heads one of W. S. Cleveland's three Japanese troupes, resigned the management of the Shintover theater at Yeddo to come to America.

Ex-Senator James G. Fair has bought the Capitol Saloon building on Montgomery street, San Francisco, opposite the Russ House, between Pine and Bush, from William M. Lent for \$65,000.

The Enterprise says Charles Darby, Esq., has resigned his position as Superintendent of the Lady Washington. On the heels of this announcement comes the news that there is an improvement in the mine.

Those sitting in the Riverside Hotel late Friday night, heard a man calling for help, and on going out found a man splashing around in the river at the boom above the bridge near the hotel. He was intoxicated, and is now known as "McGinty."

The Postoffice Department will commence the annual weighing of mails on all railroads on this coast next Tuesday. Twelve weighers will report at the San Francisco headquarters for this special business on that day. It will take about five months to complete the work.

Wm. Harold, the painter, who was struck on the head with a mallet by Ohas. Frisch died at the County Hospital yesterday morning about 3 o'clock. On the receipt of the news Frisch was reanimated and immediately locked up. R. H. Lindsay has been secured to defend him.

Lithography has almost entirely superseded pine wood engraving for show advertising purposes. W. S. Cleveland, who is the owner of the two Haverly minstrel companies, expends \$35,000 in lithographing alone, the designing of the window and wall work occupying the entire time of a corps of artists for six months.

"The Venetian Nights," the scenic spectacular first part of Cleveland's Haverly Minstrels, is a glimpse of fairy-land, and its several transformations reveal such an exhibition of splendor that an old lady, on beholding it, was so carried away that she exclaimed in an ecstasy of delight, mingled with surprise and doubt, "That must be heaven, but for heaven's sake where's the white folks, there's all coons!"

## The Trout Bite.

The Truckee Republican says Donner Lake froze up about the first of January and still has three feet of ice and two feet of snow on its surface. The fish law expires next Tuesday. The fish bite superbly. All one has to do is to cut holes through the ice and let down baited hooks. The fish catch on as soon as the hooks can be dropped. Wagon loads of fish are being caught, and the supply is inexhaustible. Anybody can catch fish through the ice. The most expert fisherman has no advantage over any man, woman or child. The trout just catch themselves. W. G. Irwin has the road broken to the lake, and everybody ought to go fishing.

## Stock Losses in Idaho.

The Shoshone Journal says the sheepmen report about 83 per cent. loss for the winter in Idaho, while the loss of cattle along Snake river will not average 20 per cent. Some owners, however, who were not as well supplied with hay as they should have been, will suffer a greater loss—probably 40 per cent.

## Rivers Booming.

The Central Nevada says the Humboldt and Reese rivers are very high at present, both being over their banks near Battle Mountain.

## Loss of Live Stock.

Elko Cattlemen estimate the loss of live stock in Elko county last winter at \$1,000,000 and the loss in the whole State at \$3,000,000.

## THE COMSTOCK.

Work Begun on the Pumping Plant—Not as Much Water Expected as of Yore—A Revival of Interest in Mining—There is Room for Discoveries of Extensive Ore Bodies—Etc.

The Enterprise, of yesterday, tells the following of the present and future prospects of the grand old lode: "Work was begun yesterday on the new pumping plant to be placed on the 1,400 level of the Crown Point, the object of which is to lower the water from about the 1,600 level—where it stands—to the 2,200 level of that mine. The 2,200 level of the Crown Point is equal to the 2,500 level of the Chollar.

It is proposed to put in a series of Dow pumps down the Crown Point incline to raise the water to the Suto tunnel level. They have two good spare boilers at the Crown Point, which are to be put in good repair, and they will immediately commence to put in an 8-inch pipe from the surface to the 1,400 level, to conduct steam down to operate the pumps. The contract of the pumping association has been signed by the members of the association in their corporate capacity, and work has been begun.

It is not expected that as much water will be encountered as was handled in going down to the 3,000 level in the first instance. During the years when deep mining was going on many extensive bodies of water, or diminutive lakes were drained, and it is not believed that they have filled up again, as they derived their supply from local surroundings. All old Comstockers remember when water could be had in wells all along Main street, Gold Hill. There is not a well of water in that section of country now. The ground is drained to the Suto tunnel level, and about 200 feet below it, proving that the local water supply is not great. At all events, in going below the water level they will not have the pressure of water to handle that they formerly had, and it is to be hoped that unbounded success will be the reward of the energy and enterprise of the pumping combination.

The Comstock has not experienced such a revival of mining as exists to-day since the excitement of November-December, 1886. The local stock brokers are doing a large business, and there is a buoyant feeling all-around that the lode has been materially helped by the recent development in Potosi.

There is room in nearly every one of our best mines for the existence of extensive ore bodies, where pick and drill have never yet penetrated. Take the Com. Cal. & Va. The 800 level is an unprospected level outside of one crosscut to the west, and there is room there for the existence of as rich and as extensive a body of ore as has been extracted from any level in that mine yet. It won't do to fool with the king bullion produce on earth. She will fool 'em.

## POTATOES FOR CALIFORNIA.

## A Trade that Nevada Should Have.

Owing to the scarcity of potatoes in California several hundred carloads have been shipped from the East during the past two or three weeks, and several hundred carloads more are expected to arrive within the next fortnight. The shipments have been so heavy that they have come in bulk like grain. Nevada raises the finest potatoes in the world, and there is no reason why these heavy shipments which are arriving in the Golden State should not come from Nevada. A better vegetable could be furnished our neighbor at less cost.

## The Minstrels.

Next Thursday evening Cleveland's minstrels will appear in Reno at a crowded house, judging by the way the seats are being reserved. Of this magnificent and colossal company the Chicago News says: "The Cleveland magnificent minstrel gave a great show at the Grand Opera House last evening. The company is the strongest that ever appeared here, and the display is really magnificent. The opening represents a scene in Venice, and the stage setting is gorgeous and artistic in the extreme. The ballad singing and orchestral work is on a par with the splendor of the stage setting. Eddie Fox has an international reputation as a leader, and he has gathered about him an array of talent equal if not superior to any on the continent. Then the comedy is fine. Willis Sweatnam is a host in himself, and with his side partner Billy Rice, is simply irresistible. They kept the house in a perpetual roar, and the best of it is that their jokes and wit are all new and sparkling. Sweatnam is the originator of the monologues and his one-act is the cleverest ever enjoyed anywhere. Then there are fine musical specialties, wonderful acrobatic and military marching feats, and to crown all, the royal Japanese athletes. In all it is a famous show. Those who miss it will miss a treat, one of the greatest of the season."

## Gates to be Opened.

When the waters of Tahoe rise seventy-three inches above low water mark, says the Truckee Republican, they will flood the wharves at McKinney's and Tahoe City. The lake has now risen thirty inches, and if the tremendous quantity of snow now on the mountains should melt suddenly great damage would result. The gates at the outlet could not permit the water to escape fast enough to prevent the flooding of valuable property. The Donner Boom & Lumber Co. have been notified that they will be held responsible for all damage. They have therefore issued orders to have the gates raised at the first approach of danger. It is a pity that any of the water should be wasted, for what could be stored this season would bridge over two or three dry years.

## DIPHTHERIA IN VIRGINIA.

A Young Lady Stricken With the Dread Disease.

Friday, says the Virginia Enterprise, a young lady aged about twenty years presented herself to Dr. Hirschberg, complaining of sickness. An examination of her throat revealed a clear case of diphtheria. She had been sick for three days. She was speedily treated and sent to her home, near the Ophir hoisting works.

The doctor forbade a sister of the young lady from attending school, and gave instructions to isolate the patient, as well as possible. He then sprayed his office and person with disinfectants—all done as under the laws of Germany.

The dread disease has been on the Comstock for several years. The city has never been quite rid of it since its advent. Cleanliness and personal attention is the best preventative. If a child is hoarse examine its throat, and if the uvula (palate) and tonsils are covered with cream colored matter, promptly send for a physician. Pending the arrival of a physician, the following application is good: Make a little swab and mix equal parts of water and alcohol and swab the throat occasionally. Make the mixture weaker for infants.

## Comstock Ore Royalty.

Theodore Suto, President of the Comstock (old Suto) Tunnel Company, who is in this city, says the San Francisco Report, is anxious to have the Comstock mining companies pay over the royalties, now amounting to about \$70,000, which are due, and which they have been holding back because of the suit brought by the old Suto Tunnel stockholders against the new corporation.

He has made an offer to the companies which owe these royalties that if they will pay them, now, there will be a reduction of 25 cents per ton in the royalty rate hereafter, making it 75 cents per ton instead of \$1, and on low-grade gold ores which do not average over \$8 per ton he will put the royalty down to 25 cents per ton. Meetings of several of the companies will be held this afternoon to consider these offers. Mr. Suto will bring suits against the companies for the back royalties if they are not paid.

## Knights Templar Officers.

At the stated annual assembly of Sir Knights of Davitt Clinton Commandery, No. 1, Knights Templar, held at the Asylum in Virginia, Friday evening, the following officers were elected to serve the ensuing year: Eminent Commander, J. H. Hubbs; Generalissimo, George A. Morgan; Captain General, E. Strother; Prelate, J. W. Eckley; Senior Warden, William Southworth; Junior Warden, Stewart Logan; Treasurer, Henry Rolle; Recorder, John B. Shaw; Standard Bearer, J. P. Smith; Sword Bearer, W. W. Stevens; Warder, Samuel Dowling.

## The Horse Rondo Dead.

The Austin Reveille says: Leopold Steiner received a letter from Dave Abel by last night's mail, announcing the death of the horse Rondo, which occurred on the 19th instant at Lone, Cal. Rondo has made some fast records for a quarter and half-mile, and gave promise of still going those distances better. The general verdict in town is expressed by the words, "It's too bad." The horse was the best runner ever bred or sent from Lander county, and this section loses by his death the only outside representative on the turf. Two veterinary surgeons were employed, one from Sacramento, and the other from Stockton, but the trouble, located in the throat, was not cured, and the horse strangled. Mr. Steiner had not sold him yet, though he had received offers.

It is reported that Frank Newlands has concluded to make no fight for Congress or United States Senator in Nevada this year, but will wait and endeavor to cook Stewart four years hence.—Carson Tribune.

Senator John Forbes, who is very prominently mentioned in connection with the Republican nomination for State Treasurer, departed to-day for his Hawthorne home.—Carson Tribune of the 28th.

## Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-awf-y

## WHAT ON AETH.

Is the reason people will not, can not or do not see any difference in cheap nostrums put up by cheap John houses or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at actual prices? No medicine in the world is giving such universal satisfaction for purifying the blood as BGG'S BLOOD PURIFIER and BLOOD MAKER, and every bottle that does not do its w will cost you nothing.

## 250 Beautiful Lots For Sale!

A RARE CHANCE FOR AN INVESTMENT AND A HOME

### THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Avenue—Riverside Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

## RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno.

Reno is the County Seat of Washoe County, the wealthiest county in Nevada.

## RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.
